The relationship between pedagogy and culture, education and culture.

What could the instructor do to improve?

Comments
Nothing
I feel like I need more instruction on the books we read through this semester, and need to know more about the connection between the class content and materials we have.

Do you have any other information that you would like your instructor to know?

Comments
Appreciated your delicate work and attitude which inspires me a lot.Thank you so much! I will miss you and your course! Welcome to visit China one day!

I want to get some feedbacks of my wonder cards
1.Dr.Porter improve students' critical thinking through the discussion about diverse topics in each class. However, she used a high level of terminologies and vocabulary in speaking and writing the assignments. 2. She did not explain exactly what was required, so, we were always confused. 3. she did never use Course web(BB). we used paper to get the assignments from her and to give it to her. I think this way is very traditional and not helpful for students. For example, if a student was absent, she cannot know what the assignment or if a student did the assignment, but she or he cannot attend the next class to give it to the instructor for different reasons, she or will lose the assignment's degree.
