

UNIVERSITY OF PITTSBURGH
Department of Health and Physical Activity (SPRING 2020)

HPA 2382: Clinical Exercise and Physical Activity Physiology 2

Instructor: Kelli Davis, PhD

Office: **Physical Activity & Weight Management Research Center**
Oak Hill Commons, 32 Oak Hill Court
Office #228
Pittsburgh, PA 15261

Office Phone: 412-383-4003

Office Hours: By appointment

Email: kkd2@pitt.edu

GENERAL COURSE DESCRIPTION: This is the second course in a sequence of advanced courses in clinical exercise physiology. This course will expand on knowledge of pathophysiology and special considerations for clinical populations by going into depth with clinical exercise testing, EKG interpretation, clinical exercise prescription including medication effects, and emergency procedures. The aim is to provide all of the knowledge and skills necessary for conducting diagnostic and functional cardiopulmonary evaluations and exercise programs for clinical patients.

PREREQUISITES: Undergraduate course in Exercise Physiology and/or admittance into the Master's Program. Clinical Exercise Physiology 1 (HPA 2381) preferred.

RECOMMENDED TEXT:

- *ACSM's Guidelines for Exercise Testing and Prescription, Tenth Edition. Wolters Kluwer: Philadelphia, 2018.
- ACSM's Clinical Exercise Physiology Ed. Walter R. Thompson, Wolters Kluwer: Philadelphia, 2019.
- Dale Dubin (2000). Rapid Interpretation of EKG's. (6th Ed.). Tampa: COVER Publishing Company.

SPECIFIC STUDENT COMPETENCIES/OBJECTIVES:

The course activities, experiences, assignments, and sequence are intended to provide opportunities for class members to accomplish specific course objectives, which include:

1. Explain the value of the GXT (graded exercise test) /CPX (cardiopulmonary exercise test) in terms of utility, sensitivity, and specificity
2. Identify the various GXT protocols, advantages and disadvantages of each, how to use them.
3. Understand the normal and abnormal physiological adaptations that occur during a GXT.
4. Know the absolute and relative contraindications to the GXT and exercise prescriptions.
5. Be able to interpret and GXT and EKG results to appropriately prescribe exercise.

6. Identify commonly used medications for clinical conditions and their effects on exercise responses and capacities.
7. Explain and know the major cardiovascular, pulmonary, diabetic drugs and the effect they have on the GXT and prescription.
8. Know the pharmacokinetics of antianginal, antihypertensive, and hypercholesteremic drugs.
9. Identify the warning signs of a heart attack, know normal emergency equipment and procedures available during exercise testing, and list basic steps in a cardiac emergency.
10. Explain the electrophysiology behind the EKG and interpret a normal and abnormal resting EKG
11. Identify various arrhythmias, blocks, hypertrophies, injuries, infarcts, and ischemic conditions from EKG's.
12. Identify EKG and cardiovascular changes during the GXT and explain the appropriate responses.

COURSE TOPICS: The student will be exposed to the following topics in this course:

1. Electrocardiography
2. Clinical Cardiopulmonary Exercise Testing and Prescription
3. Medication effects on testing and prescription
4. Emergency Procedures required by the CEP
5. Recommendations for exercise testing, programming, and rehabilitation
6. Special considerations that may impact exercise testing and programming (e.g. environmental factors, nutritional status, cognition, etc.)

This course will use a lecture based format with reviews, case studies, discussions, and exams to ensure comprehension and synthesis of material. Students are required to assume partial responsibility for learning material through reviewing PowerPoint lectures, notes, and recommended readings.

ACADEMIC INTEGRITY POLICY:

Cheating/plagiarism will not be tolerated. Students suspected of violating the University of Pittsburgh Policy on Academic Integrity, noted below, will be required to participate in the outlined procedural process as initiated by the instructor. A minimum sanction of a zero score for the quiz, exam or paper will be imposed. (For the full Academic Integrity policy, go to www.provost.pitt.edu/info/ai1.html.)

DISABILITY RESOURCE SERVICES:

If you have a disability for which you are or may be requesting an accommodation, you are encouraged to contact both your instructor and the Office of Disability Resources and Services, 140 William Pitt Union, 412-648-7890/412-383-3346 (Fax), as early as possible in the term. Disability Resources and Services will verify your disability and determine reasonable accommodations for this course.

MISCELLANEOUS ISSUES

Any student caught cheating (includes any form of academic dishonesty such as copying answers, taking quizzes/exams with another students, plagiarism, etc.) will result in an automatic "F" in this course. Additionally, the student will be reported to the appropriate university officials, and it will go on file in the student's academic record. The academic integrity form must be signed prior to taking this course and can be found on the CourseWeb page under the Academic Integrity Tab.

GRADING SCALE

Your grade will be determined by dividing your actual points by the total number of points attainable.

GRADES:	APPROXIMATE POINT VALUE*
2 EXAMS	Approximately 150-200 points
ASSIGNMENT	50 POINTS

The following grading scale will be used to determine final course grades.

A	=	90-100%
B+	=	87-89.9%
B	=	80-86.9%
C+	=	77-79.9%
C	=	70-76.9%
D+	=	67-69.9%
D	=	60-66.9%
F	=	0-59.9%

Incomplete or G Grades

Students must complete all course requirements to receive a grade for this course. In the event of extenuating personal circumstances, such as a medical emergency or a death in the family, an I or G grade may be awarded to signify unfinished course work. *G grades will not be an option for students who fall behind in the course for non-emergency reasons.* Students assigned I or G grades are required to complete course requirements no later than one year after the term in which the course was taken. After the deadline has passed, the I or G grade will remain on the record, and the student will be required to reregister for the course if it is needed to fulfill requirements for graduation.

ATTENDANCE POLICY

Attendance is highly recommended for graduate level courses. If a class is to be missed, good communication prior to the missed class is expected. **There will be no make-ups for quizzes or assignments unless prior arrangements have been made with the instructor.** Missed quizzes or assignments can only be made up if accompanied by written documentation justifying the absence. Decisions regarding the justification of the absence will be made by the instructor. These must be made up within one week at a time and date approved by the instructor. In rare cases where unexpected (emergency) circumstances arise, it is the student's responsibility to notify the instructor immediately (i.e., within 48 hours) in order to ensure the possibility of a make-up exam or project.

Department of Health and Physical Activity Grievance Procedure:

If a student feels that they have been treated unfairly by the instructor with regard to their grade or other aspects of their course participation there are a series of steps that should be taken in an attempt to resolve this matter. These include the following:

1. The student should first inform the instructor of the course of the issue in an attempt to resolve this matter. If the course is taught by a Teaching Assistant, Graduate Student, or Part-Time

instructor, their faculty supervisor should also be informed of this matter. The student should bring this issue to the attention of the instructor in a timely matter and should maintain a record of interactions that occurred with the instructor regarding the matter in question. The course instructor should take necessary steps to address the concern raised by the student in a timely matter and should maintain a record of the interactions that occurred with the student regarding this matter.

2. If, after reasonable attempts to resolve the matter, the matter is not resolved in a manner that is deemed to be acceptable to the student, the student retains the right to file a grievance. This grievance is to be filed with the Department Chair in the form of a written document that can be submitted via email or campus mail. This document should include the following:
 - a. Student's name
 - b. Student contact information (email, address, telephone number)
 - c. Information on the course for which the grievance applies (course title, course number, instructor name).
 - d. A copy of the course syllabus that was provided to the student by the instructor
 - e. Detailed description of the grievance and additional information the student feels is pertinent to this matter.

After receiving this information the Department Chair will inform the student if additional information is needed, as appropriate will discuss this matter with the student and the instructor, and will issue a decision in a timely manner.

3. If the student is not willing to accept the decision of the Department Chair, the student will be informed that they can request an additional review of this matter through the Office of the Dean of the School of Education. If the student decides to pursue this, the student should contact the Associate Dean for Student Affairs & Certification in the School of Education at the University of Pittsburgh.

SPRING 2020 COURSE SCHEDULE

The following course schedule is tentative and may change at the discretion of the instructor.

You are responsible for any changes made to the syllabus that are posted.

DATE	MODULE TOPIC	RELATED CHAPTER READINGS
JANUARY 7	Introduction/Importance of Assessing CRF/Exercise is Medicine	
JANUARY 14	EKG Interpretation	
JANUARY 21	EKG Interpretation	
JANUARY 28	EKG Interpretation	
FEBRUARY 4	EKG Interpretation	
FEBRUARY 11	EXAM #1	
FEBRUARY 18	Clinical Exercise Testing and Interpretation	
FEBRUARY 25	Clinical Exercise Testing and Interpretation	
MARCH 3	Exercise Test Results and Prescription	
MARCH 10	SPRING BREAK	
MARCH 17	Medication Effects on Testing and Prescription	
MARCH 24	EXAM #2	
MARCH 31	Emergency Procedures Required by the CEP	
APRIL 7	Clinical Skills	
APRIL 14	Special Considerations	
APRIL 21	FINAL EXAM WEEK
