What is this course about?

The purpose of this course is to enhance the development of praxis (theory enacted in practice/practice informed by theory) by exploring the most current, justice-oriented world language teaching practices, and connecting these practices with second language acquisition theory. Through this work, we will address our 3 program pillars: centering care and relationality, inviting and honoring diverse ways of knowing, and seeking to unsettle and remake unjust systems, structures, practices, and norms. One can think of this course as a core methods class that will provide teachers with foundational knowledge of theories and practices associated with how to effectively teach and assess a world language in PK-12 grade contexts.

The World-Readiness Standards for Learning Languages will be discussed, as well as how to plan standards-based lessons that incorporate functional language objectives and effective language teaching practices. Discussions will also focus on how to ensure these effective language teaching practices simultaneously address the goals of social-justice education by incorporating critical pedagogies and providing equitable opportunities for *all* profiles of students in a variety of PK-12 teaching contexts. For example, students will learn how to incorporate care and asset-based critical pedagogies by honoring and incorporating student profiles and identities when engaging in contextualized backward lesson planning. In addition, students will design lessons that incorporate dialogic approaches that alter and disrupt traditional teacher-student power dynamics and situate the learning in the student-teacher talk rather than solely in teacher-centered lecture. Finally, students will design mediational tools to assist in providing equitable instruction and assessment of all three modes of communication

for students with varying needs, profiles, and diverse ways of knowing. Students will exit the class with a wealth of ideas, approaches, lesson plans, and materials that teachers can use to provide effective, equitable, and justice-oriented language instruction in their future teaching.

What are our goals?

In this methods-style course, we will understand and apply praxis to design standards-based, justice-oriented teaching practices that provide equitable opportunities for *all* students to develop target language proficiency and intercultural competence. Throughout the course, we will analyze classroom practices with a theoretical lens, engage in the process of iterative backward design for equitable lesson and unit planning, create lessons that foster student proficiency in the three communicative modes, develop performance-based alternative forms of assessment, and discuss how effective language teaching practices are also critical pedagogies.

The class will function as a *discourse community*, using a shared language to help and support each other's learning; showing care and kindness to each other when contributing to discussions, providing feedback, reactions, and advice. Each class participant will grow individually from the contributions that are provided by all members of the discourse community.

The class will meet therefore, as a community of practice. "A community of practice is a group of individuals who share a concern and a passion for something they do. Together the group learns how to improve performance as they support and interact with each other regularly" (Wenger, 2010).

Communities of practice **apply teaching knowledge to teaching actions**. Communities of practice are about DOING and IMPROVING what they do, not just memorizing and displaying knowledge of facts. Communities of practice are action-oriented.

Essential questions

- What are the most **prominent theories** of second language acquisition?
- What are **teaching practices** that enact second language acquisition **theories**?
- What are the **World Readiness Standards** for World Language Learning? How does standards-based instruction meet the goals of **social justice education**?
- How do I write a **lesson plan** using iterative backward design? How do I design a unit plan using iterative backward design?
- How do I write **lesson objectives** that support the World Readiness Standards for Learning Languages? How do I **revise a textbook activity** to meet the standards and incorporate a purposeful, meaningful context?
- What is **Content-Based Instruction (CBI)**? How do I design lessons and curricula that are content-based?
- What are teaching practices that integrate the **three communicative modes** (interpretive, interpersonal, and presentational)? How are effective, standards-based practices critical pedagogies?
- How do I **select an authentic text** to use in a standards-based lesson? How do I select authentic texts to honor and represent voices of marginalized groups?
- How do I design a lesson around an authentic text using the **Interactive Model**?
- What are some **technological tools** that enhance student proficiency in the three communicative modes?
- How can I **adapt lessons** for students of various ages, learning needs, preferences, and cultural and linguistic backgrounds?
- How do I **foster equitable opportunities** for *all* of my students?

- What **materials** (e.g. visuals, props, realia, and authentic texts) can I design to support and mediate K-12 world language instruction?
- How can I teach a **world language** through the lens of **social justice** incorporating our three program pillars? How can I orient my language teaching practices to address, think critically about, reflect upon, and take action on social injustices?

Assignments

Evaluation:

Project 1: Language Acquisition Project	50 points
Project 2: Backward planning lesson plan Project	30 points
Project 3: CBI Info-Gap Project	50 points
Project 4: Interactive Model project	50 points
Project 5: Integrated Performance Assessment (IPA) project	50 points
2 Quizzes: standards, proficiency guidelines	20 points
Participation	70 points
Social Justice assignment	20 points

Disabilities:

If you have a disability for which you are or may be requesting an accommodation, you are encouraged to contact both your instructor and Disability Resources and Services (DRS), 216 William Pitt Union, (412) 648-7890 or (412) 383-7355 (TTY), as early as possible in the term. DRS will verify your disability and determine reasonable accommodations for this course.

Academic Integrity: Students in this course will be expected to comply with the University of Pittsburgh's Policy on Academic Integrity. Any student suspected of violating this obligation for any reason during the semester will be required to participate in the procedural process, initiated at the instructor level, as outlined in the University Guidelines on Academic Integrity. This may include, but is not limited to, the confiscation of the examination of any individual suspected of violating University Policy. Furthermore, no student may bring any unauthorized materials to an exam, including dictionaries and programmable calculators.

Statement on Classroom Recording: To ensure the free and open discussion of ideas, students may not record classroom lectures, discussion and/or activities without the advance written permission of the instructor, and any such recording properly approved in advance can be used solely for the student's own private use.

TLL Departmental Grievance Procedures: The purpose of grievance procedures is to ensure the rights and responsibilities of faculty and students in their relationships with each other. When a student in TLL believes that a faculty member has not met his or her obligations (as an instructor or in another capacity) as described in the Academic Integrity Guidelines, the student should follow this procedure:

1. The student should talk directly to the faculty member to attempt to resolve the matter.
2. If the matter cannot be resolved at that level, the student should talk to the relevant program coordinator.
3. If the matter remains unresolved, the student should talk to the associate chair of TLL (currently Dr. Tinuwka Boulder).
4. If needed, the student should next talk to the SOE Associate Dean of Students
5. If the matter still remains unresolved, the student should file a written statement of charges with the Dean's designated Academic Integrity Administrative Officer

Class Policies:

- **Assignments:** All assignments are due on the date listed on the syllabus and should be uploaded to Canvas by midnight. *If you should need an extension on an assignment, please email me in advance.*
- **Class time:** The time before, after, and during this class is dedicated to content relating to **THIS** course. Please do not use the time before, after, and during class to ask questions regarding other issues such as student teaching, assignments, and academic advising. I would be **HAPPY** to discuss these other issues during my office hours.

University of Pittsburgh Teacher Education Attendance Policy

The teacher education faculty at the University of Pittsburgh view our courses as communities of practice. This means that we gather for collective critical inquiry and reflection that is focused on building shared knowledge over time. To be an active member of our community of practice, it is important to attend face to face courses prepared to engage with the course instructor, course colleagues, and course materials. While we believe course attendance adds

value to the community of practice, we also know there may be times when students must miss class to attend to other needs. In these cases, you are afforded up to one absence per course hour. This means that if your course meets three times per week for 50 minutes each session, you are permitted three absences. If your course meets two times per week for an hour and fifteen minutes each session, you are permitted two absences. If your class meets once per week for two hours and thirty minutes, you are permitted one absence. Absences should be reserved for illness or unavoidable personal conflicts. Please see individual course syllabi, course instructors, and your program coordinator for additional information regarding attendance or absences that extend beyond this policy.

University of Pittsburgh Teacher Education Course Grade Requirement

You must earn a minimum of a C in all teacher education major coursework. You must complete all coursework in order to pass each course. Pennsylvania Department of Education requires that you must enter a teacher education program with and maintain an overall 3.0 GPA. If you do not maintain a 3.0 GPA, you will be prohibited from student teaching or earning certification.
