EDUCATION and TRAINING

| | |
|--|-----------|
| NHLBI Postdoctoral Research Fellowship, Sleep and Chronobiology Translational Research Training in Sleep Medicine T32 Department of Psychiatry, University of Pittsburgh, Pittsburgh, PA | 2010-2013 |
| Ph.D., Exercise Science (Applied Physiology concentration) Department of Exercise Science, University of South Carolina, Columbia, SC Dissertation: <i>The Effect of Exercise Training on the Severity and Health Consequences of Obstructive Sleep Apnea</i> | 2006-2011 |
| M.S., Exercise Science Department of Exercise Science, University of South Carolina, Columbia, SC Thesis: <i>Investigation of Circadian Variation in 200-m Freestyle Swim Performance</i> | 2003-2005 |
| B.A., Sports Science Department of Health & Human Performance, Malone College, Canton, OH | 1998-2002 |

APPOINTMENTS and POSITIONS

| | |
|--|--------------|
| Associate Professor <i>Department of Health and Human Development, School of Education, University of Pittsburgh</i> | 2021-present |
| Assistant Professor <i>Department of Health and Physical Activity (renamed Health and Human Development in 2020), School of Education, University of Pittsburgh</i> | 2015-2021 |
| <i>Department of Psychiatry, School of Medicine, University of Pittsburgh</i> | 2014-2015 |
| Postdoctoral Associate <i>Department of Psychiatry, School of Medicine, University of Pittsburgh</i> | 2013 |
| Postdoctoral Scholar NHLBI T32 Translational Research Training in Sleep Medicine <i>Department of Psychiatry, School of Medicine, University of Pittsburgh</i> | 2010-2013 |
| Research Associate <i>Research and Development, WJB Dorn VA Medical Center, Columbia, SC</i> | 2009-2010 |

| | |
|---|-----------|
| Graduate Research Assistant <i>Chronobiology Laboratory, Department of Exercise Science, University of South Carolina</i> | 2003-2010 |
| Graduate Teaching Assistant <i>Department of Exercise Science, University of South Carolina</i> | 2007-2008 |
| Clinical Research Assistant <i>Clinical Exercise Research Center, Department of Exercise Science, Univ of South Carolina</i> | 2003-2004 |

RESEARCH INTERESTS

- Exercise as a behavioral treatment for sleep disorders (insomnia, obstructive sleep apnea)
 - Bidirectional relationships between physical activity and sleep
 - Cardiometabolic risks of subclinical sleep disturbance and sleep disorders
 - Sleep as a pathway through which physical activity improves cardiometabolic health
 - Influence of poor sleep as a determinant of behavioral weight loss interventions
 - Sleep assessment technology and actigraphy editing standardization
 - Impact of sleep and circadian rhythms on athletic performance and recovery
-

CERTIFICATIONS

| | | |
|------------------------------------|--|--------------|
| Strength & Conditioning Specialist | National Strength & Conditioning Association | 2006-present |
| Certified Exercise Physiologist | American College of Sports Medicine | 2004-present |
| Level I Certified Coach | USA Track & Field | 2004-present |

HONORS

| | |
|--|-----------|
| Fellow, American College of Sports Medicine | 2020 |
| American Heart Association Early Investigator Travel Award | 2016 |
| National Institutes of Health Summer Institute on Randomized Behavioral Clinical Trials fellow | 2014 |
| Society of Behavioral Sleep Medicine Merit Award | 2014 |
| American Academy of Sleep Medicine Young Investigator Award (Honorable Mention) | 2013 |
| Sleep Research Society Abstract Honorable Mention Award | 2013 |
| American Psychosomatic Society Citation Poster Award | 2013 |
| American Psychosomatic Society Young Investigator Colloquium attendee | 2013 |
| National Institutes of Health Clinical Research Loan Repayment Program | 2012-2014 |
| National Sleep Foundation 'Sleep in America Poll' Task Force Member | 2012-2013 |
| Centers for Disease Control and Prevention Physical Activity and Public Health Research Course fellow | 2012 |
| Sleep Research Society Abstract Meritorious Award | 2012 |
| American Academy of Sleep Medicine Young Investigator Research Forum | 2012 |
| University of South Carolina (UofSC) Graduate School Outstanding Dissertation Award (Biological/Life Sciences) | 2011 |
| UofSC Arnold School of Public Health Doctoral Achievement Award | 2011 |
| UofSC Department of Exercise Science Outstanding Doctoral Student Award | 2011 |
| Sleep Research Society Abstract Excellence Award | 2011 |
| Sleep Research Society Trainee Award Based on Scientific Merit | 2010 |
| UofSC Arnold School of Public Health Travel Grant | 2009 |

| | |
|--|-----------|
| UofSC Charles Coker Trustee Fellowship | 2009 |
| Sleep Research Society First-time Trainee Travel Award | 2009 |
| UofSC Graduate School Travel Grant | 2008-2010 |
| UofSC Arnold School of Public Health Doctoral Fellowship | 2007-2008 |
| UofSC Graduate Student Day Research Award Runner-up (Health/Life Sciences) | 2007 |
| Delta Omega Public Health Honorary Society (<i>Mu</i> Chapter) | 2005 |
| UofSC Department of Exercise Science Outstanding Master's Student Award | 2005 |

FUNDED RESEARCH GRANTS

Current Research Support:

Co-Investigator

NIH Research Program Cooperative Agreement (U19AG063720)

Title: *The Study of Women's Health Across the Nation (SWAN): The Impact of Midlife and the Menopause Transition on Health and Functioning in Early Old Age*

PI: MM Brooks, RC Thurston (University of Pittsburgh), et al.

Period: 09/01/2021-08/31/2024

Effort: 0.6 calendar months

Purpose: To examine the extent to which midlife health, and specifically the menopausal transition, affects successful aging in women.

Amount: \$9,956,711 direct costs (\$11,145,077 total amount)

Co-Investigator

NIH Research Project Grant (R01 AG062531)

Title: *Contributions of sleep to preclinical and clinical Alzheimer's disease*

PI: JJ Himali (University of Texas Health Science Center), MP Pase (Monash University)

Period: 03/01/21-02/29/24

Effort: 1.2 calendar months

Purpose: This study will examine gold-standard assessments of sleep (e.g., PSG) in relation to incident dementia, brain volume, and cognitive function across multiple population cohorts. It is expected that lower REM and slow wave sleep percentage, and greater severity of sleep disordered breathing will be associated with a higher risk of incident AD dementia and accelerated brain aging.

Amount: \$1,996,136 direct costs (\$2,262,614 total amount) through Year 3

Co-Investigator

NIH Research Project Grant (R01 HL153095)

Title: *Sedentary behavior, physical activity, sleep, and cardiovascular risk in pregnancy: the Pregnancy 24/7 cohort study*

PI: KM Whitaker (University of Iowa)

Period: 09/15/20-08/31/2025

Effort: 1.2 calendar months

Purpose: To examine the associations of sedentary behavior and sleep with hypertensive disorders of pregnancy and other adverse pregnancy outcomes that increase future CVD risk.

Amount: \$2,787,946 direct costs (\$3,432,188 total amount)

Principal Investigator

NHLBI Clinical Ancillary Study (R01 HL147610)

Title: *Reducing sedentary behavior to improve sleep: an ancillary study to the RESET BP clinical trial*

Period: 04/01/19-02/28/23

Effort: 3.0 calendar months

Purpose: Using a multi-method sleep assessment approach, to examine the bidirectional relationship between sleep and sedentary behavior in the context of a randomized trial investigating the impact of sedentary behavior reduction on blood pressure.

Amount: \$1,000,000 direct costs (\$1,528,148 total amount)

Principal Investigator

NHLBI Small Grant for NHLBI K Recipients (R03 HL148357)

Title: *Disentangling subclinical cardiovascular risk associated with insomnia, short sleep duration, and their combination*

Period: 08/01/19-07/31/22 (NCE)

Effort: 1.2 calendar months

Purpose: To examine the subclinical cardiovascular risk profile of adults with isolated short sleep duration (i.e., without insomnia) and isolated insomnia (i.e., with ≥ 6 h sleep duration).

Amount: \$100,000 direct costs (\$155,723 total amount)

Principal Investigator

University of Pittsburgh Central Research Development Fund Small Grant

Title: *Exercise and obstructive sleep apnea: examination of the nocturnal rostral fluid shift as a mechanism of effect*

Period: 07/01/17-06/30/22 (NCE)

Purpose: To address whether acute exercise impacts obstructive sleep apnea (OSA) severity and examine whether evening exercise reduces OSA severity to a greater extent than morning exercise in comparison with a sedentary control condition.

Amount: \$15,998 direct costs (\$15,998 total amount)

Completed Research Support:**Principal Investigator**

NIH (NHLBI) Mentored Patient-Oriented Career Development Award (K23 HL118318)

Title: *A novel risk factor for cardiovascular disease: the insomnia-short sleep phenotype*

Period: 01/01/14-12/31/19

Effort: 9.0 calendar months

Purpose: To provide focused training in the measurement of subclinical cardiovascular disease (CVD), diagnosis/treatment of insomnia, and design/conduct of randomized trials; the linked research project will examine whether insomnia with short sleep is associated with subclinical CVD and develop/refine a novel behavioral treatment (CBT-I with exercise) for this phenotype.

Amount: \$718,402 direct costs (\$775,723 total amount)

Co-Investigator

NIH Research Project Grant (R01 HL107370)

Title: *Real time data collection with adaptive sampling and innovative technologies*

PI: LE Burke (School of Nursing, University of Pittsburgh)

Period: 04/01/16-03/31/17 (CEK support) Effort: 0.6 CM [cost-shared] during no-cost extension year

Purpose: To improve ecological momentary assessment (EMA) methodology by further developing and testing an adaptive assessment system designed by an interdisciplinary team using state-of-the-science hardware and software that limits subject burden while facilitating real-time data collection in the context of a behavioral weight loss intervention.

Amount: \$1,962,537 direct costs (\$2,808,011 total amount)

Principal Investigator

NIH Loan Repayment Program Award (L30 HL115832)

Title: *Exercise, the cardiovascular risk of insomnia, and sleep-related hyperarousal* (initial funding); *A novel cardiovascular disease risk factor: the insomnia-short sleep phenotype* (renewal)

Period: 09/01/11-08/31/14

Purpose: To examine the relationships between physical activity, sleep-related hyperarousal, insomnia, and cardiovascular risk in archival datasets and a proposed CDA application.

Amount: \$23,200 direct costs (\$23,200 total amount)

Principal Investigator

Centers for Disease Control & Prevention Public Health Dissertation Research Grant (R36 CD000695)

Title: *Exercise: a novel treatment for obstructive sleep apnea*

Period: 08/01/08-07/31/10

Purpose: To evaluate the efficacy of exercise training for the reduction of obstructive sleep apnea severity and its associated health consequences.

Amount: \$34,992 direct costs (\$37,991 total amount)

Principal Investigator

American College of Sports Medicine Research Foundation Doctoral Student Research Grant

Title: *Circadian phase-shifting effects of three exercise durations*

Period: 06/01/07-05/31/09

Purpose: To compare the circadian phase-delaying properties of moderate-intensity exercise durations of 30, 60 and 90 minutes in a sample of young, healthy adults.

Amount: \$5,000 direct costs (\$5,000 total amount)

Principal Investigator

Gatorade Sports Science Institute Student Research Grant

Title: *Shifting human circadian rhythms with different exercise durations*

Period: 09/01/07-08/31/08

Purpose: To compare the circadian phase-delaying properties of moderate-intensity exercise durations of 30, 60 and 90 minutes in a sample of young, healthy adults.

Amount: \$1,500 direct costs (\$1,500 total amount)

Principal Investigator

Gatorade Sports Science Institute Student Research Grant

Title: *Investigation of circadian variation in 200-m freestyle swim performance*

Period: 09/01/05-08/31/06

Purpose: To determine the existence of a circadian rhythm in swim performance using a chronobiological technique that standardizes various exogenous factors.

Amount: \$2,700 direct costs (\$2,700 total amount)

TEACHING EXPERIENCEWorkshops:

Abbreviations: ACSM = American College of Sports Medicine; APS = American Psychosomatic Society; UofSC = University of South Carolina

- | | |
|-----------|---|
| 2020 | Faculty Member, Summer SWIM (Sleep and Circadian Workshop on Indispensable Methods) Workshop, University of Pittsburgh Center for Sleep and Circadian Science <i>Details:</i> Invited speaker for two presentations during the week-long online workshop: 'Impact of sleep and circadian disturbances on cardiometabolic health' (co-presented with MH Hall) and 'Research-grade versus commercially available actigraphy devices: the good, the bad, and the possible' (as part of the 'Meet the Experts' sessions). Approximately 30 attendees. |
| 2015 | Panel Lecturer, Sleepless in Savannah: 2015 APS Sleep Measurement Workshop; APS Annual Meeting, Savannah, GA <i>Details:</i> Invited lecturer for two presentations during the 4-hour workshop: 'Actigraphy Lab Session' and 'Obesity, Obstructive Sleep Apnea, and Psychosomatic Medicine'. Approximately 25 attendees. |
| 2006-2010 | Workshop Director, ACSM Health/Fitness Specialist Workshop; Dept of Exercise Science, UofSC <i>Details:</i> 2-day workshop that prepared individuals in the health/fitness field for the Health/Fitness Specialist certification; regularly attended by 15-30 adults interested in certification or obtaining continuing education credits. |
| 2006-2009 | Lecturer, ACSM Health/Fitness Specialist Workshop; Dept of Exercise Science, UofSC |

Details: Taught Metabolic Calculations lecture, which entailed instruction on how to understand and estimate energy expenditure using ACSM formulas and definitions

- 2004-2005 Assistant to Workshop & Certification Coordinator, ACSM Health/Fitness Instructor Workshop & Certification; Dept of Exercise Science, UofSC
Details: 3-day workshop (and certification) session that prepared individuals in the health/fitness field for the Health/Fitness Specialist certification; regularly attended by 20-35 adults interested in certification or obtaining continuing education credits.
- 2003 Assistant Workshop Coordinator, Cooper Institute Physical Fitness Specialist Fast Track Clinic; Dept of Exercise Science, UofSC
Details: Workshop designed to prepare individuals for Physical Fitness Specialist certification exam; attended by 2 adults in the health/fitness field.

Academic Courses—Guest Lectures:

- Fall 2020 PSYC 2575 (Sleep and Circadian Rhythms in Health and Disease)
 Department of Psychology, University of Pittsburgh
Details: led a presentation on 'Sleep and cardiometabolic health'
- Spring 2018, 2019 SHRS 2868 (Seminar in Sports Medicine)
 Department of Sports Medicine & Nutrition, University of Pittsburgh
Details: led a presentation on 'Interrelationships between physical activity, sleep, and cardiometabolic risk', emphasizing their bidirectional associations
- Spring 2015, 2019 HPA 3377 (Chronic Disease Case Studies)
 Department of Health & Physical Activity, University of Pittsburgh
Details: led a presentation on 'Exercise and Sleep', emphasizing the bidirectional relationship between these two behaviors
- Fall 2018, 2019 PT 2028 (Health and Wellness)
 Department of Physical Therapy, University of Pittsburgh
Details: led a presentation on 'Importance of sleep to physical therapists' to second-year DPT students
- Fall 2017, 2018 HPA 3116 (Resource & Funding Acquisition for Health Programming)
 Department of Health and Physical Activity, University of Pittsburgh
Details: led a presentation on identifying federal grant funding opportunities
- Spring 2017 Topics in Health and Physical Activity (course 69-120)
 Department of Athletics and Physical Education, Carnegie Mellon University
Details: led a presentation on the importance of sleep health to students
- Summer 2014 Summer Medical Student Didactic Series
 Department of Psychiatry, University of Pittsburgh
Details: led a presentation on 'The Basics of SDB' to medical students and summer research interns
- Spring 2012 PSYC 1057 (Seminar in Sleep and Health)
 Department of Psychology, University of Pittsburgh
Details: supervised and directed presentations on 'Sleep and Metabolism'

- Spring 2006 EXSC 351 (Acquisition of Motor Skills)
Department of Exercise Science, University of South Carolina
Details: single lecture that provided an overview of motor learning concepts and research methods
- Spring 2006 EXSC 710 (Behavioral Aspects of Physical Activity)
Department of Exercise Science, University of South Carolina
Details: single lecture that reviewed the effects of exercise on sleep
- Fall 2005 EXSC 731 (Mechanics of Motor Skill Performance)
Department of Exercise Science, University of South Carolina
Details: instructed lab that focused on studying performance on distinct motor ability tasks and discussing results relative to motor ability hypotheses
- Summer 2005 EXSC 530 (Physiology of Muscular Activity)
Department of Exercise Science, University of South Carolina
Details: single lecture that reviewed ATP-PC system and anaerobic glycolysis
- Summer, Fall 2004 EXSC 341A (Health/Fitness Practicum)
Department of Exercise Science, University of South Carolina
Details: delivered lecture on common musculoskeletal fitness testing procedures, cues, norms

Academic Courses—Course Instructor:

- Spring 2021, 2022 HHD 1042 (Physiology of Exercise)
Department of Health and Human Development, University of Pittsburgh
Details: instructed undergraduates on the core principles of exercise physiology, including both lecture-based and lab-based content
- Fall 2017-2021 HHD 2268 (Physical Activity and Health) (online course)
Department of Health and Physical Activity, University of Pittsburgh
Details: delivered instruction on the relationship between physical activity and health via online lectures, discussion boards, and written assignments
- Spring 2019, 2020 HPA 1233 (Principles of Strength & Conditioning)
Department of Health and Physical Activity, University of Pittsburgh
Details: instruct undergraduate students on introductory concepts and science behind the training for optimal athletic performance
- Spring 2016-2018 HPA 3377 (Chronic Disease Case Studies)
Department of Health & Physical Activity, University of Pittsburgh
Details: facilitated presentations by Pitt researchers studying chronic diseases/ conditions and how lifestyle management may impact these conditions; led lectures, administered quizzes, designed and reviewed final paper assignments
- Spring 2008,
Summer 2008 EXSC 531L (Clinical Exercise Physiology Laboratory)
Department of Exercise Science, University of South Carolina

Details: coordinated 12 sections and taught 2 sections of laboratory class; labs focused on skills related to clinical exercise physiology (e.g., electrocardiography preparation and interpretation, graded exercise testing protocols)

Fall 2007,
Summer 2008

EXSC 530L (Physiology of Muscular Activity Laboratory)
Department of Exercise Science, University of South Carolina

Details: coordinated 12 sections and taught 2 sections of laboratory class; labs focused on basic skills and principles related to exercise physiology (e.g., fitness testing, maximal oxygen consumption, blood pressure measurement)

Summer 2005,
Spring 2007

EXSC 351L (Acquisition of Motor Skills Laboratory)
Department of Exercise Science, University of South Carolina

Details: taught 3 laboratory sections of class; led labs regarding the effect of factors (e.g., attention, practice) on motor performance

University-related Journal Clubs/Student Seminars:

2014-2022

Sleep T32 Journal Club (Department of Psychiatry, University of Pittsburgh)
Led presentations on the following: *SWAN Sleep I actigraphy inspection procedures* (2014), *Apnea 102: can it be assessed by self-report?* (2017), *The basics on effort reporting* (2018), *Commercial devices for measuring sleep* (2019), *Actigraphy editing standardization* (2019), *Assessing physical activity: options and considerations* (2021), *Measures of sedentary behavior and physical activity* (2022).

Seminars and Invited Presentations:

34. The importance of sleep for optimizing athletic performance and recovery: background and recommendations. *Invited presentation (co-presented with BP Hasler) to the Duquesne University Student Athlete Seminar (virtual), January 31, 2022.*
33. The importance of sleep for optimizing athletic performance and recovery: background and recommendations. *Invited presentation (co-presented with BP Hasler) to the Duquesne University Student Athlete Seminar (virtual), February 8, 2021.*
32. The importance of sleep for optimizing athletic performance and recovery. *Invited presentation at the Yale Sleep Medicine Seminar (virtual), December 16, 2020.*
31. Using consumer technology in sleep research. *Invited presentation (co-presented with JD Cook and D Forger) as part of the Trainee Network and Development Suite Sessions at the APSS/SLEEP Annual Meeting (San Antonio, TX), June 10, 2019.*
30. Necessity of quality sleep to prevent and combat obesity. *Invited presentation at the Grove City College Exercise Science Symposium (Take Control of Your Health: Wellness, Exercise, and Nutrition), April 6, 2019.*
29. Do wearable fitness sleep trackers actually work? Assessing measurement error and validity issues. *Invited presentation in the 'Using Apps and Consumer Wearables in Clinic for Lifestyle and Cardiometabolic Health' seminar at the AHA Scientific Sessions (Chicago, IL), November 10, 2018.*
28. Exercise as a behavioral treatment option for obstructive sleep apnea. *Invited presentation as part of the symposium "Moving' Sleep to the Forefront of Exercise Science" (DA Dobrosielski, AM*

- Spaeth, co-presenters) at the ACSM Mid-Atlantic Regional Chapter Annual Meeting (Harrisburg, PA), November 2, 2018.*
27. The importance of sleep for optimal athletic performance and recovery. *Invited presentation at the Grove City College Exercise Science Symposium (Strategies for Recovery and Regeneration), March 24, 2018.*
 26. The importance of sleep to health and fitness. *Invited presentation at the ACSM Health and Fitness Summit (San Diego, CA), April 8, 2017.*
 25. Bidirectional relationships between weight change and sleep apnea in a behavioral weight loss intervention. *Invited short presentation at the Annual University of Pittsburgh Cardiovascular Epidemiology Conference (Pittsburgh, PA), April 3, 2017.*
 24. Sleep management. *Invited presentation at the Triathlon and Endurance Sports Clinic organized by the UPMC Lemieux Sports Medicine Center (Pittsburgh, PA), March 31, 2017.*
 23. Exercise and obstructive sleep apnea: OSA risk across the physical activity continuum. *Invited presentation at the University of Pittsburgh Sleep Medicine Institute Research Day (Pittsburgh, PA), November 10, 2016.*
 22. The importance of sleep to weight loss and weight maintenance. *Invited webinar for Sanford Profile health coach team, October 20, 2016.*
 21. Sleep and rest to maximize your CC performance. *Invited presentation at the Cuyahoga Falls High School Black Tiger Cross Country Camp (Cuyahoga Falls, OH), August 8, 2016.*
 20. Physical activity as a treatment and prevention of sleep problems. *Invited tutorial (co-presented with SD Youngstedt) at the ACSM Annual Meeting (Boston, MA), June 3, 2016.*
 19. Sleep and circadian rhythms: their importance to weight loss and behavior change in lifestyle interventions. *Invited presentation as part of the symposium "Sleep, circadian physiology, and body weight regulation" (KP Wright, FAJL Scheer, co-presenters; CE Kline, chair) at the World Congress on The Basic Science of Energy Balance/ACSM Annual Meeting (Boston, MA), June 1, 2016.*
 18. Sleep and rest to maximize your run. *Invited presentation at the 'Final Tune UP! Maximize Your Race' seminar organized by the UPMC Lemieux Sports Complex (Pittsburgh, PA), April 2, 2016.*
 17. Sleep: the forgotten pillar of health. *Invited presentation (co-presented with DJ Buysse) at the Pittsburgh Urban League Lunch and Learn Series (Pittsburgh, PA), August 6, 2015.*
 16. Sleep: a novel pathway through which physical activity reduces cardiometabolic risk. *Invited presentation at the University of Pittsburgh Department of Health & Physical Activity (Pittsburgh, PA), March 16, 2015.*
 15. Sleep and athletic performance. *Invited presentation at the University of Pittsburgh Sports Psychiatry Special Interest Group seminar (Pittsburgh, PA), January 13, 2015.*
 14. Exercise and obstructive sleep apnea: OSA risk across the physical activity continuum. *Invited presentation at the University of Pittsburgh Multidisciplinary Sleep Grand Rounds Seminar Series (Pittsburgh, PA), January 8, 2015.*

13. Cardiometabolic risk in the insomnia/short sleep phenotype: could exercise be a key treatment component? *Invited presentation as a University of Pittsburgh Department of Psychiatry 'Researchers on the Rise' lecture (Pittsburgh, PA), October 24, 2014.*
12. Exercise as a treatment for obstructive sleep apnea. *Invited presentation as part of the Bench to Bedside symposium "Exercise as a behavioral sleep medicine intervention" (KG Baron, AS Walters, PC Zee, co-presenters) at the APSS/SLEEP Annual Meeting (Minneapolis, MN), May 31-June 4, 2014.*
11. Insomnia with short sleep duration: its cardiovascular risk and treatment with a novel behavioral intervention. *Invited presentation at the University of Pittsburgh Multidisciplinary Sleep Grand Rounds Seminar Series (Pittsburgh, PA), December 5, 2013.*
10. More than improved sleep quality: The effects of physical activity on nocturnal physiology and multiple dimensions of sleep. *Invited presentation at the Academy of Behavioral Medicine Research Annual Meeting ("Behavior, Health, and Aging"; Monterey, CA), June 29, 2013.*
9. Exercise and sleep: comparing 'Sleep in America' poll results with empirical data. *Invited presentation at the University of Pittsburgh Multidisciplinary Sleep Grand Rounds Seminar Series (Pittsburgh, PA), March 7, 2013.*
8. Improving sleep with exercise: a novel pathway for reducing cardiometabolic risk? *Invited presentation at the Auburn University Department of Kinesiology (Auburn, AL), January 9, 2013.*
7. The potential utility of exercise training in the management of obstructive sleep apnea. *Invited presentation at the University of Pittsburgh Multidisciplinary Sleep Grand Rounds Seminar Series (Pittsburgh, PA), October 6, 2011.*
6. Circadian rhythms and athletic performance. *Invited presentation as part of the symposium "Sleep, recovery, regeneration and performance in sport: an examination of current sleep research and health initiatives focused on the relationship of sleep to exercise" (C Samuels, S Youngstedt, C Mah, co-presenters) at the World Association of Sleep Medicine/Canadian Sleep Society Congress (Quebec City, Canada), September 10-15, 2011.*
5. Exercise training for OSA: a randomized controlled trial. *Invited presentation at the Sleep Research Society Trainee Day DataBlitz (Minneapolis, MN), June 11, 2011.*
4. The effects of exercise training on the severity and health consequences of obstructive sleep apnea. *Invited presentation at the UofSC Department of Exercise Science Seminar Series (Columbia, SC), April 16, 2010.*
3. The effect of sleep time, circadian rhythms, and training time of day on performance. *Invited presentation at the National Strength and Conditioning Association Annual South Carolina State Clinic (Columbia, SC), April 26, 2008.*
2. Exercise, athletic performance, and circadian rhythms. *Invited presentation at the UofSC Department of Exercise Science Seminar Series (Columbia, SC), March 21, 2008.*
1. Is there circadian variation in athletic performance? *Invited presentation at the UofSC Department of Exercise Science Seminar Series (Columbia, SC), November 11, 2005.*

Thesis, Masters and Doctoral Dissertation Committees

Undergraduate Honors Thesis:

- 2010 Kate Hubble, Department of Exercise Science, University of South Carolina
The truth about half marathons
- 2009 David Elliott, Department of Biological Sciences, University of South Carolina
The effects of eszopiclone on adenomatous polyposis development in APC^{Min +/-} mice

Master's Thesis/Project:

- 2022 J. Tyler Butler, Department of Health and Human Development, University of Pittsburgh
The acute therapeutic effect of Bhramari Pranayama on autonomic function and self-reported anxiety
- 2019 Jocelyn Mineo, Department of Biostatistics, University of Pittsburgh
Concordance of actigraphic and ecological momentary assessed sleep
- 2018 Alyssa Monaghan, Department of Epidemiology, University of Pittsburgh (MPH Essay)
Relationship of sleep quality and duration and obesity in Afro-Caribbean men

Doctoral Dissertation:

- 2022 Supawit Ittinirundorn, Dept of Exercise Physiology, Chulalongkorn University (Thailand)
Effects of high intensity interval training combined with respiratory muscle training on apnea-hypopnea index and oxidative stress in patients with obstructive sleep apnea
- 2021-2022 Marissa A. Evans, Dept of Psychology, University of Pittsburgh
Dynamic changes in sleep characteristics and pre-sleep arousal during cognitive behavioral therapy for insomnia as predictors of treatment response
- 2021 Ronald E. Jackson, Dept of Health and Human Development, University of Pittsburgh
Light-intensity physical activity and the association between BMI and cardiometabolic risk factors in adults with obesity
- 2021 Abdullah B. Alansare, Dept of Health and Human Development, University of Pittsburgh
Associations of sedentary time with heart rate variability
- 2020-2021 Andrew G. Kubala, Dept of Health and Physical Activity, University of Pittsburgh (Chair)
The effect of short-term exercise on sleep and daytime impairment in adults with insomnia
- 2020 Tracy Bowman, Dept of Health and Physical Activity, University of Pittsburgh (EdD)
A needs assessment of first-generation college student-athletes at Seton Hill University
- 2020 Bruno T. Barbosa, Federal University of Paraiba (Brazil)
Effects of a 24-week aquatic training program on obstructive sleep apnea syndrome severity in elderly women: a randomized controlled clinical trial
- 2019 Andrew S. Palko, Dept of Health and Physical Activity, University of Pittsburgh (EdD)
Post-secondary faculty knowledge and perceptions of student-athlete concussion management in the classroom
- 2019 Tyler D. Quinn, Dept of Health and Physical Activity, University of Pittsburgh
Cardiovascular mechanisms of the occupational physical activity health paradox
- 2017 Sophy J. Perdomo, Department of Health and Physical Activity, University of Pittsburgh
Acute dose response effects of aerobic exercise on cerebrovascular hemodynamics and arterial stiffness
- 2016 Charity Breneman, Department of Exercise Science, University of South Carolina
Associations between sleep parameters and physical activity in middle-aged and older adults

External Examiner:

2019 Penelope Larsen, School of Exercise Science, Sport & Health, Charles Sturt University
The interrelationship of sleep, appetite, and exercise: a wakeup call for the middle-aged man

Direct Student Supervision:

2020-2022 Directed Research Experience, RESET SLEEP Study
Isaiah Marsalis, 2022, Undergraduate Research Assistant
Adrianna Sherwood, 2022, Undergraduate Research Assistant
Spencer Gerhard, 2021, Undergraduate Research Assistant
Chris Maloney, 2021, Undergraduate Research Assistant
Daniel Hochman, 2020, Pitt First Experiences in Research student
Sadie Jin, 2020, Undergraduate Research Assistant
Courtney Lewis, 2020, Undergraduate Research Assistant
Ingrid Shu, 2020, Pitt First Experiences in Research student
2021 Directed Research Experience, sleep and athletic performance
Emily McConnell, Undergraduate Research Assistant
2018-2019 Directed Research Experience, Insomnia and Cardiovascular Health Study
Emily K. Pietrangelo, 2018, MS Student
Cameron Woods, 2018, Undergraduate Research Assistant
Nolan Vannata, 2019, Undergraduate Research Assistant
Andrew Tanabe, 2019, Undergraduate Research Assistant
2016-2018 Directed Research Experience, Commercial Activity Tracker Study
Victoria DiRenzo, 2016, Undergraduate Research Assistant
Patrick Donahue, 2016, MS Student
Elizabeth Dierkes, 2016, Undergraduate Research Assistant
Erin C. Santos, 2017, Undergraduate Research Assistant
2009-2010 Independent Study, Apnea and Activity Research Study
Colin Kane, 2009-2010, Honors College Undergraduate Research Fellow
DeAnna Milton, 2009-2010, Honors College Undergraduate Research Fellow
Kelli Giles, 2010, Undergraduate Research Assistant
Graham Jones, 2010, Undergraduate Research Assistant
Morgan Porter, 2010, Undergraduate Research Assistant
Ashley Reluzco, 2010, Undergraduate Research Assistant
Elizabeth Rose, 2010, Undergraduate Research Assistant
Elizabeth Rowell, 2010, Undergraduate Research Assistant
Hannah Sagedy, 2010, Undergraduate Research Assistant

Graduate Student Research Supervision:

2021-present Caitlin A. Cheruka, PhD student
2021-present Rachel M. Sanders, PhD student
2016-2020 Andrew G. Kubala, MS/PhD student
2016-2018 Julie A. Erwin, MS student

Teaching Practicum Mentorship

2021 Andrea Kozai, Physiology of Exercise (HHD 1042)

Guided Mentorship on Research Projects:

2017-2018 Christy Taylor, Medical Student
The effects of snoring on subclinical cardiovascular disease

| | |
|-----------|---|
| 2012 | Samantha Leathers, Medical Student <i>The relationship between medication use and sleep in midlife women</i> |
| 2011-2012 | Leanna Lubinski, Research Associate <i>The association between sleep and physical activity in older adults</i> |
